

Instructions on how to find “Selection of Applicable Harmonized Standards”

1. Go to the website of the European Union: <https://europa.eu.int/>

Choose the appropriate language (i.e. it is written EN-Gateway to the European Union for English version).

2. Click on “Institutions” section. Then choose the “European Commission”
3. After clicking on this section you will see the “Enterprise” link under the header “Economy and Society”.
4. On the left side you will see “Policy Areas”. Please click on there and then choose “New Approach and Global Approach”.
5. Click on “New Approach” New Approach and → Global Approach – Standardization.
6. Choose “List of reference of harmonized standards” after that you can choose any of the Directives by clicking on the name of the Directive in column 3.
7. A full list of Harmonized Standards will be displayed, particularly relevant for that Directive.

Instruction on how to find Product Families and Keywords

1. Go to the website: <http://www.newapproach.org/>
2. You are now at the site of CEN, the European Normalization Institute.
3. You can search from the list which product you are looking for and see the applicable Directive. Click on that Particular product, and you will see the number of the applicable harmonized Standards for your product.

Instructions on how to find “EC Declaration of Conformity”

1. Go to the website: <http://europa.eu.int/>

Choose the appropriate language (i.e. it is written EN-Gateway to the European Union for English version).

2. Click “Institutions”, then choose the European Commission section under “Institutions”.
3. After clicking on this section you will see the “Enterprise” link under the “Economy and Society” section.
4. Click on “Industry Sectors” and after that you can choose one of the topics which you are interested in (i.e. Mechanical Equipment link).
